SHOWPRO

LIVE STUDIO EVENTS

ShowPro Live Studio Events is a sophisticated technical environment supplying broadcast events with the same world-class production that is expected from an in-person event. Connect with your audience in an innovative, captivating and memorable way by combining live, in-studio performances, unique content and remote performances. Instantly create breakout sessions for participants to experience closer interaction. Deliver your content in spectacular fashion while keeping your costs under control. ShowPro Live Studio Events is your solution.

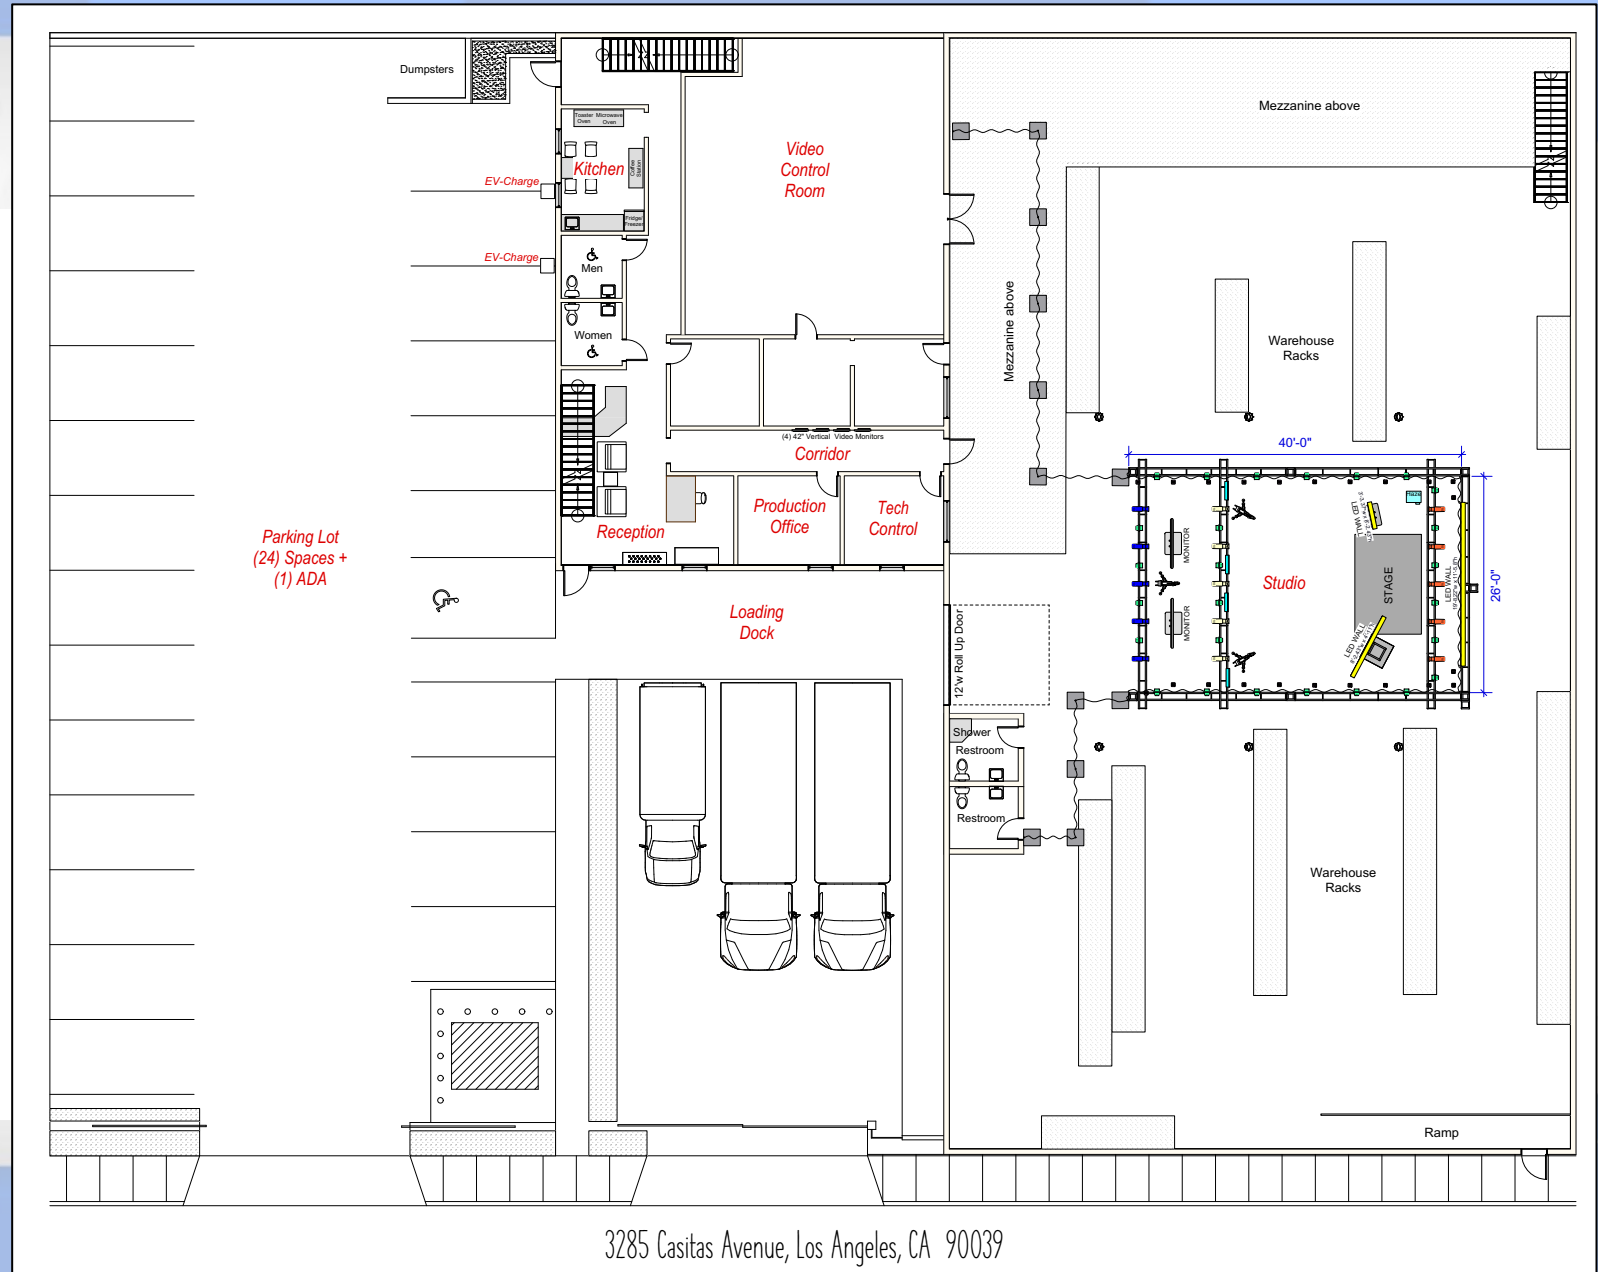

live!

As an award-winning technical production company, ShowPro has been known as the industry leader in trend-setting corporate and event production services. From audio, video and lighting, to staging, production design and content creation, ShowPro brings the creative, equipment, and team to deliver the highest level of success for every project.

When COVID-19 brought the in-person event industry to a standstill, ShowPro was the first to help its clients pivot toward broadcast solutions. Now, we've taken that one giant leap forward: when you utilize ShowPro for your production services, the ShowPro studio facility is all yours!
